Dear Mariangela

Sorry to keep you waiting for this. The telephone number that I have for Nigel Shackleton is:
01633 774027. I don't know what the dial in code from Italy would be I'm afraid, but I'm sure that you have that.

Hope this helps

Sarah

Dear Mr. Shackleton,

The subject International patent application (in which you and Tony Brown are the inventors) was filed on March 22, 2000 and should now be validated in States designated at the time of foreign filing within September 25, 2001.

In this connection, I need to know whether I can indicate on the formal papers requested for the national phases the following address for you:

Bryn View, 19 Shore Road
Littleborough, Lancashire OL 15 9LG
United Kingdom

and the following one for Tony Brown (I am not able to contact him):

12, Priory Avenue
Ewenny, Bridgend, CF31, 3LR
United Kingdom

If the addresses have been changed, could you please inform me so that I will ask the International Authority to centrally record the changes before proceeding with the national applications.

Signature of the inventors will be also required and I will contact you at the end of September.

Can you please be so kind and give me some information how to get in touch with Mr. Tony Brown?

With many thanks for your kind cooperation.

Sincerely yours,

Mariangela Sala
